[12:37] <jackwhite202> marvel said they have 20 movies in development  
[12:37] <bethemadeagle> jack i still think thanos will be the main bad guy of both though

[13:00] <haytuff> im sure youll do great  
[13:00] <bethemadeagle> jack you dont know if they can or not i mean in the marvel universe people have been stopped with all the stones  
[13:00] <majinboo3> anyone with all the stones of the infinite gauntlet is effectively unstoppable  
[13:00] <dkpgames> Im hyped for wwe sims  
[13:00] <jackwhite202> in the comics when thanos got all the stones he wiped out half the universe with a finger flick  
[13:00] <bethemadeagle> but they were pretty stupid  
[13:00] <majinboo3> Even if you ort me had the gauntlet we would be overpowered  
[13:00] <ornightz> A highly Smashed face Phil after 3 glasses of Shine  
[13:00] <fluttershy1970> has the christmas goal been reached yet?  
[13:01] <ashfordian2015> Moonshine!!

[13:02] <dkpgames> Another question, FighterZ says January on Internet but in psn 6/30  
[13:02] <bethemadEagle> jack you do realize that all it tkes is one of the stones getting loose and dropping out to stop him having full power and that could easily happen  
[13:02] <theycallmejimbob> dspPepe what were they thinking  
[13:02] <wouldyoulikesomeballz> @bethemadEagle Chelsea winning GoHam

[13:03] <khaosrayne> does no one remember having to grind and grind on FF7 ?  
[13:03] <bethemadEagle> and if the heroes get one stone the others will be easier to get after  
[13:03] <khaosrayne> that was a thing.. it was needed  
[13:03] <glorytoBeh> you dont HAVE to grind in FF7 unless you wanna do the superbosses

[13:35] <bethemadeagle> shoot the flying rats  
[13:35] <bobbi\_ling> oh yeah this game has robots  
[13:35] <zahvone> @lvlpower The cars look weird Kappa  
[13:35] <marshmelons> this is still the best looking game on consoles by far  
[13:35] <dkpgames> Keep skyriming the mountain  
[13:35] <kushiyakitori> just run to the destination  
[13:35] <bethemadeagle> ven ahahah  
[13:35] <stinkinburrows> @Butter\_\_My\_\_Bread I think i actually remember him saying that now

[13:36] <zahvone> Oh fuck I need morrowind in my life  
[13:36] <popsicolo> CLIFF RACERS  
[13:36] <zahvone> and Tenchu!  
[13:36] <zahvone> Morrowind and Tenchu remasters and I'll be a content boy.  
[13:36] <grsicki> its like street fighter vs akuma story mode lmao @DarksydePhil  
[13:36] <marshmelons> just wear stealth outfit  
[13:37] <bethemadeagle> bobbi if it was morrowind it would have to be a newer VERY upgraded version of it  
[13:37] <wouldyoulikesomeballz> Onimusha needs a HD remaster  
[13:37] <zahvone> Oh yeah, Onimusha was sick  
[13:37] <ellietsantiara> @darksydephil Remember that if you see yellow colored ledges, it means you can climb them

[13:37] <bobbi\_ling> this game is downgraded beth. too simplified  
[13:37] <dkpgames> Who made these robot birbs  
[13:38] <katexo234> oh shoes Phil  
[13:38] <bobbi\_ling> paul heyman made the robot birds according to the lore  
[13:38] <bethemadeagle> bobbi i tried morrowind and said fuck it im going back to oblivion :D  
[13:39] <dkpgames> Nice a great manager snd scientist  
[13:39] <zahvone> Alright gonna play Elite: Dangerous while I watch.  
[13:39] <bobbi\_ling> you are too dumb to play morrowind beth  
[13:39] <stuart360> This kind of looks like Skyrim on PC graphics wise  
[13:39] <korewasugoi> @stuart360 nothing close  
[13:39] <me\_\_god> ... tentacles! I'M IN  
[13:39] <bethemadeagle> a least i tried give me credit damn it  
[13:39] <zahvone> @stuart360 I see what you mean. Better textures in this game, though.  
[13:39] <stuart360> Nah its close,c not quite Skyrim standards but its close  
[13:39] <marshmelons> pc users are blind lmao  
[13:39] <eldeadmariachi> He means Heavily modded  
[13:39] <bobbi\_ling> when did you try morrowind? you only play on playstations  
[13:39] <korewasugoi> @stuart360 this looks like garbage compared to Skyrim modded  
[13:39] <korewasugoi> ofc  
[13:39] <marshmelons> the damage control is too funny  
[13:40] <korewasugoi> why play vanilla when there are mods  
[13:40] <scoopula> Skyrim looks like garbage compared to this are you kidding.  
[13:40] <stiliqn007> CoolStoryBob cool noises bro  
[13:40] <bobbi\_ling> another lie beth  
[13:40] <dkpgames> Cuz my pc is bad?  
[13:40] <bethemadeagle> i tried it a couple weeks ago on my shit pc which cant run games on it :D  
[13:40] <stuart360> I have to agree, my modded Skyrim looks better than anything though. It kind of put proffesional devs to shame really  
[13:40] <bobbi\_ling> liar  
[13:40] <bethemadeagle> so i said fuck that  
[13:40] <zahvone> I can't wait to experience the next iteration of the bethesda game engine  
[13:40] <zahvone> Seriously  
[13:40] <bethemadeagle> it was a laggy piece of crap  
[13:40] <ellietsantiara> Look for yellow ledges  
[13:40] <bethemadeagle> so i deleted it  
[13:40] <marshmelons> its crazy how this ps4 exclusive makes so many pc fanboys so insecure  
[13:40] <calo\_nord\_> fuck bethesda  
[13:40] <zahvone> the only issues I have with it, are that the engine becomes dated so quickly. :(  
[13:40] <vendatus> these graphics are worse than Skyrim on switch LUL  
[13:40] <bethemadeagle> my pc couldnt handle it  
[13:41] <zahvone> What's wrong with bethesda? lol  
[13:41] <dkpgames> Thats because theres 6 years of mods for skyrim  
[13:41] <wouldyoulikesomeballz> @zahvone day one bugs, broken mechanic?  
[13:41] <eldeadmariachi> @stuart360 Yeah, some ENB makes Skyrim look so perfect  
[13:41] <vendatus> Keepo  
[13:41] <stuart360> Eh?, this would be a very average looking PC game to be honest  
[13:41] <zahvone> @WouldYouLikeSomeBallz I'll take bugs and broken mechanics over lootboxes and microtransacs  
[13:41] <bobbi\_ling> enb = epic name bro  
[13:41] <zahvone> ENB is interesting.  
[13:41] <ass\_blastor> the snow graphics in this are amazing  
[13:41] <wouldyoulikesomeballz> same

[13:41] <stiliqn007> these graphics remind me of Mario 64 SlyJeremy  
[13:41] <ass\_blastor> Skyrim is 8 bit compared to it  
[13:41] <korewasugoi> Looks outdated already  
[13:41] <korewasugoi> damn  
[13:42] <eldeadmariachi> @zahvone Nothing don't listen to them  
[13:42] <divanerasmus> DLC and loot box hype  
[13:42] <katexo234> the lighting dspSurpriseddsp  
[13:42] <stuart360> Rise of the Tomb Raider on PC maxed looks a couple of levels above this to be honest, plus 60fps to boot  
[13:42] <zahvone> Lol, we can all agree that while Bethesda games are often quite buggy and broken  
[13:42] <zahvone> They are indeed FANTASTIC games, usually.  
[13:42] <marshmelons> tomb raider looks like a 360 game even on pc  
[13:42] <bethemadeagle> kate you going to play this?  
[13:42] <vendatus> ohai Ashley Burch aka Chloe aka Tiny Tina Kreygasm  
[13:42] <eldeadmariachi> @zahvone Pooooound  
[13:42] <me\_\_god> @marshmelons woah there.  
[13:43] <stuart360> Sony fanboys really do live in a bubble don't they, they are getting as bad as Nintendo fans  
[13:43] <katexo234> of course bethe I played the game why not play the dlc  
[13:43] <zahvone> I only wish they would broaden their HORIZON and push beyond simply just fantasy and post-epidemic sci-fi lol  
[13:43] <marshmelons> damn these pc fanboys get butthurt so easy  
[13:43] <bethemadeagle> stuart huh i don't live in a bubble  
[13:43] <zahvone> @stuart360 What's a nintendo  
[13:43] <deepdrive3254> so this is skyrim now? :D  
[13:43] <korewasugoi> Botw mechanics  
[13:44] <korewasugoi> kek  
[13:44] <vendatus> bethe confirmed Bubble Boy LUL  
[13:44] <bobbi\_ling> dragons ruined skyrim  
[13:44] <bethemadeagle> deep well if you think cold snowy mountains as skyrim sure  
[13:44] <eldeadmariachi> @stuart360 I never understand the "I love this console but I hate the others" I consider myself a PlayStation fan and yet I enjoy Xbox and Nintendo  
[13:44] <me\_\_god> @marshmelons i'm talking about the game. rottr has insane graphics  
[13:44] <zahvone> @elDeadMariachi Agreed. I'm a fan of video games.  
[13:44] <iconicmaster1> Yu gi oh encore marathon stream HSVoid  
[13:44] <stuart360> Nah you're cool bethe, i just mean the ones that think every exclusive is somehow 'the best looking game ever made', when in reality they look quite average to PC games  
[13:44] <marshmelons> rottr looks awful though. even ff13 looks better  
[13:44] <bobbi\_ling> skyrim's tombstone says "dragons ruined me"  
[13:44] <hobbs1017> @deepdrive3254 skyrim is 100000x better with more depth  
[13:44] <deepdrive3254> horizon zero dawn was great  
[13:44] <zahvone> @elDeadMariachi The problem is that once you get a PC and game on it a little bit, you start to understand how limited consoles are - not by power but by possibilities  
[13:44] <scoopula> There is no PC game that looks better than this. Higher resolution doesn't make a game look better.  
[13:45] <vendatus> ehh it was alright  
[13:45] <me\_\_god> @marshmelons not true. too much snow, but where there's no snow, it's brilliant  
[13:45] <bethemadeagle> bobbi calm down  
[13:45] <stuart360> lol Scoopula thanks for proving my point  
[13:45] <korewasugoi> Console games look like med-high settings on pc  
[13:45] <marshmelons> it's kinda sad when a pc fanboy gets so insecure over a game that undermines thousands of dollars of investment  
[13:45] <zahvone> @elDeadMariachi I can stream, listen to music, watch videos, read books, chat, etc etc and

game at the same time on PC. But on console it feels...normal.

[13:45] <lvlpower> did Phil have to pay for this dlc

[13:45] <eldeadmariachi> @zahvone Yeah I get that. I have a gaming pc too but not that powerful to fully run these games

[13:45] <zahvone> It's to the point in which I barely enjoy video games anymore lol

[13:46] <scoopula> @stuart360 I would be mad too if I bought \$2000 worth of PC parts and sub worse performance than a \$300 console

[13:46] <stiliqn007> bugged eye mechanics

[13:46] <vendatus> HZD is basically future FC Kappa

[13:46] <zahvone> Nothing is satiating my focus

[13:46] <fr2sty1> Buggy eyes

[13:46] <marshmelons> even pc fanboys dont wanna play pc games

[13:46] <wxrxaxtxh> bugged?

[13:46] <lvlpower> I'm gonna final out

[13:46] <zahvone> LOL @marshmelons Yes! How true, sadly.

[13:46] <kushiyakitori> R3

[13:46] <sh1nn> R3 ?

[13:46] <bobbi\_ling> its usally piss4 vs xbae one dspHm

[13:46] <me\_\_god> @marshmelons well, most of them are controle-to-pc ports

[13:46] <aloofone> look at the controls in the menu?

[13:46] <imaidenr> frost

[13:47] <stuart360> Actually my PC was £500, and its more powerful than the X. Keep up the 10yo PC memes though

[13:47] <marshmelons> could you imagine investing thousands of dollars on pc hardware only to spend more time watching ps4 games lol

[13:47] <eldeadmariachi> @marshmelons I don't play in my pc that much because I find my consoles comfortable. my PC is really noisy compared to my ps4

[13:47] <korewasugoi> used pc parts yo

[13:47] <zahvone> I love the PC platform - for how modular it is and everything I can do with it. But my friends have ps4 and that's completely fine. It's easier for them financially

[13:47] <korewasugoi> people dont know that Pc can be built from used stuff

[13:47] <zahvone> @elDeadMariachi Believe it or not my PC is somewhat beefy and damn near silent. In fact you can't even hear my PC at all, partially due to the case having foam inside but, still lol

[13:47] <dooley258> The Xbox one x is not nearly as powerful as MS wants you to believe

[13:47] <bobbi\_ling> your friends are casual

[13:47] <korewasugoi> not some off the shelf shit

[13:47] <zahvone> and I have 8 fans.

[13:48] <lvlpower> Yes Phil spend money on this dlc

[13:48] <scoopula> I wouldn't use used PC parts unless you like your PC to be covered in Cheeto dust

[13:48] <kushiyakitori> ... what difficulty is this?

[13:48] <wouldyoulikesomeballz> Consoles aren't blessed with Gabe's steam sales though

[13:48] <stuart360> Once you get used to mods (and higher resolutions and framerates obviously) it's hard to go back to consoles, and I was a console gamer for 20+ years

[13:48] <zahvone> Are you ready for a miracle ?

[13:48] <eldeadmariachi> @zahvone Cool, I'll upgrade my pc once I have more money. My PC has 5 coolmaster fans that's why it's noisy

[13:49] <pedropatricio1991> \*i dont remember how to play the game\* blames the game  
[13:49] <lvlpower> full price \$19 unless his got ps plus it's \$14  
[13:49] <butter\_\_my\_\_bread> PC is a money pit. you're always just chasing benchmarks  
[13:49] <katexo234> jimbob whyyyy  
[13:49] <zahvone> @stuart360 My biggest comparison for the whole console - PC argument isn't graphics at all. It's always framerate, and the amount of content you can consume at once.  
[13:49] <kushiyakitori> LOOK IN THE MENU  
[13:49] <pray4rock> Use the trip wires traps  
[13:49] <marshmelons> even "pc gamers" spend all their time watching console games cos theres nothing on there  
[13:49] <bethemadeagle> jim I FUCKED YOU SO HARD  
[13:49] <bobbi\_ling> play NITW instead  
[13:49] <kushiyakitori> lmao the game explains your equipment well  
[13:49] <bethemadeagle> i am not ashamed  
[13:49] <kushiyakitori> you have more than 4 weapons  
[13:49] <kushiyakitori> look at the damn menus lol  
[13:50] <channel33> why the fuck are you playing this shit?  
[13:50] <me\_\_god> @Zahvone the main pc argument is freedom of choice.  
[13:50] <zahvone> @elDeadMariachi I believe mine does as well. I have a Ryzen cpu so it should be quite noisy considering I'm using the default cooler... this case is incredible. VERY silent.  
[13:50] <dominonova> As long as you are having fun on the platform you are playing on why does it matter?  
[13:50] <aloofone> this could be a fast playthrough  
[13:50] <zahvone> @me\_\_god That's a better choice of words actually. Thank you  
[13:50] <me\_\_god> :)  
[13:50] <wouldyoulikesomeballz> Man city drawing LUL  
[13:50] <stuart360> PC is not a money pit at all, its just another console fanboy myth. My PC was Â£500 (with a 980ti), and my old PC had a Q9650 cpu and thats over 9 years old now, it still ran games fine  
[13:50] <zahvone> @DominoNova It shouldn't. Everyone should enjoy it - the biggest issue is cross-platform. :(I  
[13:50] <dooley258> I donâ€™t like the pc community, too many hackers and pirates  
[13:50] <korewasugoi> Pirates make it bad?  
[13:50] <katexo234> bethe don't get too cocky  
[13:50] <bethemadeagle> my weapons dealt with every situation gimme my trip wires, my tear and flame arrows and my hardpoint arrows  
[13:50] <zahvone> @dooley258 That is a fair point.

[13:50] <darthradovanviking> lol yeah that damn pc comunity  
[13:50] <bethemadeagle> fuck em all up

[13:51] <bethemadeagle> kate maybe i am getting too cocky  
[13:51] <dooley258> But there's no question that pc is the best option for gaming  
[13:51] <zahvone> People still hack and cheat on console though lol. Like using a keyboard and mouse on console for FPS games is just bullshit but  
[13:51] <zahvone> Ehhh  
[13:51] <me\_\_god> the 1st mistake console only gamers do , is assuming you buy a pc with "I want the best graphics!!11!" objective  
[13:51] <kingcruz713> cheer10  
[13:51] <deepdrive3254> take it out  
[13:52] <darthradovanviking> I hope you are joking dooley it think it would be a bit unfair to call everyone using pc a community :D  
[13:52] <dooley258> I use mouse and keyboard for shooters on consoles yeah  
[13:52] <bethemadeagle> pc is the best option for gaming but you cant shit on switch, xbox or ps4 just because you got a super duper upgraded high tech pc that is not fair at all  
[13:52] <vendatus> Fortnite cheaters LUL  
[13:52] <kingcruz713> been following you since the fallout 3 days  
[13:52] <stuart360> But you only need an i3 and a 750ti to beat XB1 and PS4, and thats like a LOOOOOOW end PC  
[13:52] <me\_\_god> communities do not exist.  
[13:52] <eldeadmariachi> @me\_\_god Yeah. I actually bought a pc because on the long run you save lots of money with the steam sales  
[13:52] <popsicolo> "Aloy, I'll knock your teeth in. Get me some sausages! RBRBRBRBBR!" -Rost

[13:52] <bobbi\_ling> you have a job beth  
[13:52] <kozatof> DOOLEY  
[13:52] <divanerasmus> @DarksydePhil you aren't a big fan of the horizon hype train why play the DLC ? is it now better somehow ?  
[13:52] <kozatof> DOOLEY BOMB  
[13:53] <marshmelons> if pc had actual games that weren't just early access indie shit like pubg then maybe it could be taken seriously  
[13:53] <deepdrive3254> well bethe has a kid now bobbi  
[13:53] <bethemadeagle> bobbi so doesn't mean i can afford a xbox or switch or a good pc  
[13:53] <popsicolo> BeThe, I'll knock your teeth in. Get me some sausages! RBRBRBRBBR!  
[13:53] <aloofone> you're gonna need to learn how to fight anyways. not smart to skip enemies you may have to face in the future  
[13:53] <eldeadmariachi> @bethemadeagle That's how fanboys think. I personally don't hate any game or console.  
[13:53] <stuart360> There are a 100 times more PC games than console games, that's just flat out wrong marshmallow  
[13:53] \* bethemadeagle gives pops all the sausages he wants  
[13:53] <popsicolo> :sausage:  
[13:53] <sardarkh> Just 40x explosive tripwire and you are good to go  
[13:53] <bethemadeagle> i don't hate oc either  
[13:54] <bethemadeagle> games maybe who knows bobbi makes me hate em more than most  
[13:54] <me\_\_god> you can't play the best version of f.e.a.r. and crysis on console ;)  
[13:54] <vendatus> Pops really likes his meats TriHard  
[13:54] <marshmelons> inside shovelware on steam greenlit made by some random chinese dude jacking off

doesn't count

[13:54] <breath321> Are we actually having a PC vs console discussion right now? It's pretty widely accepted that PC is better, but console is more convenient and intuitive

[13:54] <popsicolo> This reminds me of New York last winter.

[13:54] <kittyspank> ahh

[13:54] <bethemadeagle> pops oh cool now im even more cold

[13:54] <butter\_\_my\_\_bread> @stuart360 i would feel inadequate if i didn't make a splash with a I7 6700 1080ti and that would be a lot of money for barely 4K 60 fps even tho id probably opt for 1440p 120fps especially for Multiplayer games but then I'd have to buy the monitor to boot. i just dont know when the right time is to jump in and I don't care about pc exclusives, ya know?

[13:54] <popsicolo> Sweating in the snow WutFace

[13:55] <darthradovanviking> you're review tech USA are you not? @Butter\_\_My\_\_Bread

[13:55] <zahvone> I don't think 4k is even a good goal for people to hit right now unless you're a content creator or content consumer of the heaviest degree

[13:55] <dooley258> This looks impressive for a ps4 game

[13:55] <scoopula> 4K is still a gimmick

[13:55] <popsicolo> I know you can sweat in the BeThe. I'm saying that that sweat is going to freeze.

[13:55] <breath321> Yeah when console can barely make it to a stable 60fps, 4k is a pretty ridiculous think to go for

[13:55] <thebigtj1337> lmao

[13:55] <thenewfaceofcreation> @EllietSantiAra oh shut up

[13:55] <ass\_blastor> @Butter\_\_My\_\_Bread Have you ever opened your door to take a step outside your house?

[13:55] <zahvone> I think 1440p should be more than enough right now for most people to aim for. At least if you're aiming for graphics, aim for framerate lol

[13:55] <vendatus> It's Mordor we must save Talion LUL

[13:56] <zahvone> Talion!

[13:56] <stuart360> Butter my bread, my PC has a I56600K, 16gb DDR4 Ram, and a 980ti, which can max out any game at1440p and even 4k. You dont need to spend as much as you think to have a PC capable of blowing away modern games

[13:56] <breath321> thing, even

[13:56] <dooley258> I have a 4K oled tv and I can assure you that games look amazing in 4K

[13:56] <dooley258> Even when itâ€™s not true 4K

[13:56] <popsicolo> Is this Solstheim? popsicSmug

[13:56] <zahvone> I know games look great in 4k - it's just not economical for most people right now

[13:56] <butter\_\_my\_\_bread> @ass\_blastor why don't u ask phil that if we're throwing stones and yes of course i have smartypants :P

[13:56] <breath321> @dooley258 Yeah I'm sure they look amazing, but it would be much much better to have better performance in consoles, rather than more better graphics and an even lower fps

[13:56] <zahvone> and when console gamers try to make the move into PC, they just see 4k and then they see the "price to performance" ration and back out

[13:57] <dooley258> You can get decent 4K tvâ€™s for a few hundred dollars

[13:57] <popsicolo> The really got the frosty winter night aesthetic down really well.

[13:57] <eldeadmariachi> I never understand why people lose their shit over 4k. 1080p is more than fine for me

[13:57] <me\_\_god> try 4k :D

[13:57] <korewasugoi> whoever said "4k is a gimmick" is an idiot

[13:57] <stuart360> Like i said, its not even the better graphics that make the PC so great, its the mods. Mods just transform games

[13:57] <pray4rock> 4K and HDR

[13:57] <darthradovanviking> it is fine when you are used to 1080p but if you have gotten used to 4k you wil tell the difference

[13:57] <zahvone> No one said 4k was a gimmick

[13:57] <ellietsantiara> the game de selected the quest marker

[13:57] <zahvone> I'm saying that for the average consumer and gamer, 4k is ECONOMICAL.

[13:57] <aloofone> i only play at 1080p 60fps so my 4790 with a 1060 is fine for me

[13:57] <dooley258> I agree, mods are amazing

[13:57] <bethemadeagle> pops you doubted son interactive entertainment how dare you, im joking before people say im a fanboy

[13:57] <zahvone> Especially if it's your first or second build

[13:57] <ass\_blastor> what resolution is 4K?

[13:58] <breath321> 4k itself is not a gimmick, PC has had 4k gaming for a long time, the gimmick is consoles focusing on 4k when they should be getting their hardware up to far, whenever a cheap PC already outperforms them

[13:58] <bethemadeagle> people too sensitive

[13:58] <vendatus> I wonder if Aloy has frosty nips right now dspPeppe

[13:58] <scoopula> 4K is like 3D TV

[13:58] <scoopula> It will be gone in a year

[13:58] <bethemadeagle> ven of course

[13:58] <grsicki> people like 4k because there is a noticable difference and looks very sexy

[13:58] <scoopula> 12K is where it's at

[13:58] <butter\_\_my\_\_bread> @stuart360 u can emulate Zelda BotW at 4K 60fps now

[13:58] <zahvone> Lootchests!

[13:58] <bobbi\_ling> mods let me be a child killer SeemsGood

[13:58] <popsicolo> I need to be able to see all of Aloy's pores.

[13:58] <azotherian> @DarksydePhil why not use Cyber Monday to get better parts slowly for a better PC?

[13:58] <divanerasmus> loot box hype sumFail

[13:58] <stuart360> Yeah the Pro and the X should just do 1440p (for new games). The X could then have higher settings and possibly better framerates

[13:58] <zahvone> @Azotherian Don't have the money for it right now

[13:58] <deepdrive3254> now theres gonna be people demanding phil upload in 4k at 60fps

[13:58] <butter\_\_my\_\_bread> puts buying a switch into perspective if you're weary of Mario titles. i do love my mario kart and Smash tho

[13:59] <vendatus> Aloy the poor mans Ygritte LUL

[13:59] <popsicolo> "My name's not Nora. It's Aloy!" -Aloy, of the Nora

[13:59] <stuart360> Already did it Butter My Bread, it barely even used any resources as well which is pretty funny when you see how hard it pushes the Switch

[13:59] <ass\_blastor> 4k isn't really 4k, its 2k, 2160p. Saying 4K is same as saying 1080p is 2k

[13:59] <bethemadeagle> ven who was ygritte again i remember that name

[13:59] <popsicolo> They're doing a Maori Haka PogChamp

[13:59] <nnif> Live shot from America in 2050

[13:59] <azotherian> I bought a GTX 1050 Ti for \$130, that's not too bad

[13:59] <popsicolo> WRRRRRRRRRRRRRRRRYYYYYYYYYYY

[14:00] <azotherian> @Zahvone just offering a suggestion  
[14:00] <bethemadeagle> pops nah this game is better  
[14:00] <breath321> @Azotherian PC doesn't know how to use a PC for gaming, he's had issues before, didn't try to fix them and just shit talked PC as a platform and stopped trying  
[14:00] <korewasugoi> ruining the moment phil  
[14:01] <breath321> @Azotherian DSP doesn't know how to, even  
[14:01] <zahvone> @Azotherian Oh, no I understand lol. Just joining the conversation is all. I'm actually due for a gpu upgrade.

[14:01] <ass\_blastor> 4K is just a marketing term for people who aren't familiar with what resolutions are  
[14:01] <azotherian> @Breath321 it makes sense. Before I built my own PC, I had an out-of-the-box walmart pc  
[14:01] <divanerasmus> you witnessed corpse hijacking  
[14:01] <azotherian> so I know the feels  
[14:01] <stuart360> Actually i'd prefer Phil to just stick to consoles for playthroughs. PC's can still be a bit tricky problem wise. I do wish he had the money to get the Pro and X though  
[14:01] <azotherian> @Zahvone I am upgrading from a 560 Ti I bought 6 years ago

[14:02] <grsicki> KappaPride give me that popsicle @Popsicolo  
[14:02] <popsicolo> This isn't the first lewd art I've done today either, Bobbi.  
[14:02] <stuart360> Ass Blaster yeah but its more because if 1080p was 1k and 2160p was 2k, people would think that 2k is just twice as good, where in reality its 4 times the resoltion over 1080p  
[14:03] <azotherian> oh no @Zahvone. according to GPUBoss, yours is better than mine

[14:08] <breath321> @EllietSantiAra Maybe comment his thoughts on what people are discussing, it's hard to talk about the stream whenever the game is not really popular and Phil isn't giving much commentary

[14:08] <azotherian> @Zahvone thanks. I can give you my 560 Ti if you want a replacement gpu

[14:09] <ellietsantiara> No, if Phil sees the chat is talking about random off topi shit, he's just gonna focus on the game

[14:09] <zahvone> @Azotherian I appreciate it, but you might be better off keeping it as a backup gpu. You never know!

[14:09] <zahvone> @ratchefan12 Welcome welcome

[14:09] <bethemadeagle> the shamans path is the main quest though

[14:09] <breath321> I'm upgrading my CPU, GPU, mouse and mousepad for christmas, getting an i7, and a 1080 ti, still deciding on mouse and mousepad though

[14:10] <i\_spawn\_i\_die> @DarksydePhil you received a tip

[14:10] <butter\_\_my\_\_bread> @breath321 i guess u did ur due diligence and ur motherboard is compatible? Changing a motherboard is something ive heard ppl are kinda leery about doing

[14:21] <bethemadeagle> i cant wait until he finds newer TOUGHER machines  
[14:21] <stuart360> To be fair, the falling snow looks good, not so much the deformation on the ground though. ROTTR looks better for that  
[14:21] <bobbi\_ling> kane?  
[14:22] <marshmelons> daemonic in this game makes them insanely aggressive like a frenzied monster in mh4u  
[14:22] <direwolfsif> L3 slows time  
[14:22] <popsicolo> I heard the game devs watched nature documentaries as inspiration for the game's art style.  
[14:22] <bethemadeagle> bobbi maybe but i mean kane isnt tough he got destroyed by braun  
[14:22] <me\_\_god> yeah, you could draw penises in ROTTR

[14:22] <azotherian> Have you guys seen the Witcher 3 water effects  
[14:22] <paddingtonbear187> STOOPIID shhnow

[14:23] <bobbi\_ling> kane x undertaker yaoi  
[14:23] <stuart360> Marshmelolow unless you have played the PC version, you can't talk. It looks a couple of levels above this. Stop being so close minded  
[14:23] <vendatus> I want the South Park DLC now LUL  
[14:23] <breath321> @stuart360 It's bait, just ignore it  
[14:23] <azotherian> @stuart360 he be a console pleb. Let us ignore his trolling ways

[14:23] <me\_\_god> at least he just acknowledged lara's ass  
[14:23] <popsicolo> This is what it's going to look like when I go up into the hills to look for Krampus next month.  
[14:24] <doctorzzz> its a quest item  
[14:24] <marshmelons> rottr on pc is just the 360 port upscaled. gta vice city had better textures than that trash  
[14:24] <me\_\_god> ass > resolution  
[14:24] <stuart360> But he;'s the reason why we have the 'PC master race' stuff, because of people like him  
[14:24] <bethemadeagle> isnt this PS exclusive though  
[14:24] <vendatus> yes  
[14:24] <azotherian> PS Exclusive = will be released for the other consoles next year  
[14:24] <bobbi\_ling> all ps exclusives are casul single player games LUL  
[14:24] <popsicolo> Apparently they even rendered the grass under the snow.  
[14:24] <marshmelons> pc is so good everyone would rather watch console games  
[14:24] <breath321> @BetheMadEagle We're talking about the PC version of Rottr I think, but idk if this is ps exclusive  
[14:24] <roguepixy> you know you can hide in the grass, the sparkly ones by crouching  
[14:25] <me\_\_god> @Azotherian only Japanese ps exclusives  
[14:25] <bethemadeagle> PS exclusives are actually good though so its ok  
[14:25] <doctorzzz> RIP  
[14:25] <vendatus> next week D2 dlc the following week Okami HD VoHiYo  
[14:25] <marshmelons> rottr wasnt even open world and they still couldnt make the snow look good  
[14:25] <bethemadeagle> also most dont get cancelled  
[14:25] <breath321> I wanted to get a PS4 to play Bloodborne but since it's locked at 30fps I don't think tis worth  
[14:25] <me\_\_god> #thisisnotdarksouls  
[14:25] <bobbi\_ling> bloodborne is worst souls game  
[14:26] <scoopula> bloodborne isn't a souls game  
[14:26] <stuart360> Playstation exclusives over the last 18months have been good to be fair. I jus6t think Sony

fans need to remember that 95% of games released are multiplatform.

[14:26] <breath321> Plus I don't wanna pay the price of a PS4 for a Bloodborne machine, I don't care for any of the other PS4 exclusives

[14:26] <bobbi\_ling> as i said

[14:26] <bobbi\_ling> worst souls game

[14:26] <doctorzzz> the difficulty they added for the dlc is really cool, ultra hard is really punishing

[14:26] <marshmelons> why doesnt phil play the big pc exclusives that just came out? like...um...nvm

[14:26] <kinggrub73> Hey, Bloodborne is 100 % awesome, worth the price of the console by itself.

[14:26] <me\_\_god> nvm?

[14:26] <darkone667> bloodborne nominated gotye

[14:26] <scoopula> doesn't make sense, but I wouldn't expect anything else

[14:26] <azotherian> I have just started to play through DS1 on steam

[14:27] <bobbi\_ling> bloodborne had very bad pvp for a souls game

[14:27] <azotherian> and I just killed the wolf

[14:27] <roguepixy> stealth kill from red grass

[14:27] <bethemadeagle> stuart yes i understand that and i also understand that oc is always going to be better but that doesnt mean PS or XBONE cant try their best

[14:27] <breath321> @marshmelons PC has had a lot more exclusives than both consoles throughout the years, not that you know that, or was serious about your comment though

[14:27] <popsicolo> Bloodborne PVP was swell. Cannon meta. popsicSmug

[14:27] <doctorzzz> well all fututr xbox games are on pc anyway

[14:27] <thesupervillain543> when is bloodborne 2 coming

[14:27] <marshmelons> only exclusive game on pc is the waiting game

[14:27] <scoopula> there are no exclusive PC games, only early access beta tests you pay for

[14:27] <breath321> Most FPS games are basically PC exclusives since using keyboard and mouse on console is bannable since it's basically cheating

[14:28] <me\_\_god> crysis

[14:28] <lvlpower> @thesupervillain543 new year

[14:28] <direwolfsif> Phil could buy way more powerful weapons with all those shards

[14:28] <azotherian> @Breath321 I wouldn't waste your username on marsh because he doesn't understand that console are essentially lower grade PCs

[14:28] <bethemadeagle> microsoft own pc and xbone so yeah pc and xbone exclusive instead of just xbone

[14:28] <popsicolo> The birds are chirping RlyTho

[14:28] <marshmelons> pc is bad even the mobile port of pubg runs better

[14:28] <stuart360> I'm only messing a bit Bethe, i just find Sony fanboys have been obnoxious over the last 4 years.

[14:28] <lvlpower> @thesupervillain543 Next year

[14:28] <breath321> @Azotherian Yeah I know, but someone might believe the shit he's spouting, so I just responded to clear it up

[14:28] <bobbi\_ling> i wanna play dbd on pc so i can be the best nurse in the world dspCowboy

[14:28] <scoopula> It comes with the territory of having the best console

[14:28] <bethemadeagle> stuart ok

[14:29] <bethemadeagle> bobbi then buy it simple

[14:29] <bobbi\_ling> console fps dspEw

[14:29] <marshmelons> pcfanboys literally get offended by games they cant play. kinda sad

[14:29] <wxrxaxtxh> Xbox is the best box.

[14:29] <breath321> @Bobbi\_Ling Playing FPS with a controller is like playing Street Fighter with a keyboard, literally unplayable

[14:29] <azotherian> @marshmelons tbh, console gamers get upset when they have their games locked at 30fps

[14:29] <bethemadeagle> wrath why you gotta say these things starting a console war now

[14:29] <me\_\_god> marsh is distracting the chat on purpose

[14:30] <marshmelons> this game would be on pc if pcs were powerful enough to play it.

[14:30] <stuart360> Sony fanboys need to remember the first 2 years of this game when we had all the 'PS4 has no games' memes. This stuff goes in cycles.

[14:30] <azotherian> @WxRxAxTxH nu-uh! The Xbox 360/2 is the best!

[14:30] <me\_\_god> it's an anti-dsp conspiracy

[14:30] <breath321> @me\_\_god agreed

[14:30] <bobbi\_ling> hey ps4 had knack Kappa

[14:30] <bethemadeagle> DIE DIE DIE dumb birds

[14:30] <marshmelons> xbox had no games for the first two years.

[14:30] <thesupervillain543> this game is an L

[14:30] <scoopula> xbox has no games now

[14:30] <bethemadeagle> bobbi knack 1 was good i boycotted knack 2

[14:31] <stuart360> And DriveClub Bobbi, oh how i enjoyed their salt all over the bad reviews that game got lol

[14:31] <me\_\_god> how do you do slow motion here?

[14:31] <scoopula> click in the right thumbstick

[14:31] <djrno1> damn dude the game is very very loud during action

[14:31] <bethemadeagle> drive club was shit though

[14:31] <bobbi\_ling> LUL

[14:31] <doctorzzz> cant you hold 3 arrows at once ?

[14:32] <thesupervillain543> youre very very loud during ur mom LUL

[14:32] <divanerasmus> @DarksydePhil do you like the game more because of thr DLC or unsure ?

[14:32] <stuart360> Yes Bethe but fanboys acted like it was an amazing game and the reviews were wrong etc.

[14:32] <me\_\_god> wow she crafter 30 arrows during combat! what a champ

[14:32] <bethemadeagle> fanboys will fanboy

[14:32] <me\_\_god> crafted

[14:32] <azotherian> A game series I think that get paid reviews are the new CoD games

[14:32] <stuart360> DriveClub nearly made me buy a PS4, until the reviews lol

[14:34] <azotherian> @zaxbys\_sauce nahp because people always want to show their e-peens

[14:34] <bobbi\_ling> this game starts wars in chat. turn it off

[14:34] <marshmelons> its really fun especially the bikes they added. plus no lootboxes and mc

[14:34] <breath321> @zaxbys\_sauce Marshmellow is the only console war person, wouldn't call one person talking shit a war lmao

[14:42] <bammbino> @marshmelons this engine is for HZD ground up but will be used in death's stranding and more! sony coughed up alot of \$\$\$\$  
[14:42] <wouldyoulikesomeballz> it wouldn't handle this shit  
[14:42] <bethemadeagle> you kill enemies they spawn more you hurt enemies they heal em so towers need to be taken out or overrided first

[14:47] <kushiyakitori> @Bammbino giving himself a challenge I guess. which is probably not ideal since the enemies are a bit tougher here and the quests go beyond his level

[15:19] <markymark52> no crafting  
[15:19] <markymark52> I believe  
[15:19] <marshmelons> @DarksydePhil you need to buy it from a merchant. it require 10 fatty meat  
[15:19] <cookiemanster530> And EA says that gamers don't like Single Player games as much these days  
[15:19] <bethemadeagle> ascii dick pics lagging up my stream fucking trolls  
[15:19] <markymark52> no faty meat I was mistaken.  
[15:19] <markymark52> from merchant  
[15:20] <oakslsapws> you get it from a merchant  
[15:20] <stuart360> Studios want to brainwash you into believing that people dont care about single player games anymore. Its just easier for them to sell MP dlc and microtransactions  
[15:20] <cookiemanster530> Pretty much  
[15:20] <bethemadeagle> YOU NEED TO BUY THE GOLDEN FAST TRAVEL PACK FROM STORE  
[15:20] <bethemadeagle> im late :(  
[15:21] <cookiemanster530> That's why Bethesda won't make Elder Scrolls 6 for another 10 years. They make enough milking Skyrim  
[15:21] <seth189> same, what's up everyone  
[15:21] <oakslsapws> why doesnt he get any new skills?  
[15:21] <deepdrive3254> that sucks bethe :(  
[15:21] <bethemadeagle> i dont mean late for stream i meant late to tell phil but hey seth  
[15:21] <stuart360> To be fair, the orig version of Skyrim sold like 25mil coppies. Ridiculous for that type of game  
[15:21] <seth189> oh lol but heyo  
[15:21] <deepdrive3254> yeah i haven't checked my whispers in about a month  
[15:21] <cookiemanster530> I wish they'd make another Elder Scrolls like Daggerfall  
[15:21] <bethemadeagle> stuart it was hype at the time  
[15:22] <shega\_ace> they keep re releasing it but i don't think much of it, still played it but wasn't wow  
[15:22] <bethemadeagle> deep it does suck and it freezes the damn stream and chat so i cant do shit  
[15:22] <oakslsapws> this dlc is quite hard  
[15:22] <stuart360> 25mil copies for a RPG series that started on the PC. Its pretty crazy Bethe in todays world of COD, GTA and FPS games  
[15:23] <bethemadeagle> true stuart  
[15:23] <cookiemanster530> I wish that COD would go away tbh  
[15:23] <cookiemanster530> I don't see the appeal  
[15:24] <bethemadeagle> the appeal is kid fanboying over it and begging parents to buy it for em every year  
[15:24] <zaxbys\_sauce> cod sucks now  
[15:24] <goldencolts> cheer100  
[15:24] <zaxbys\_sauce> Bo2 was the last good one  
[15:24] <shega\_ace> so i've been living under a rock for this game what is this game roughly about i'm getting Fallout vibes  
[15:24] <bethemadeagle> and parents give in and get it for em day 1  
[15:24] <stuart360> COD2 is still my fave lol  
[15:24] <cookiemanster530> I like that chics hair, but damn she could use some make up.  
[15:25] <oakslsapws> its about humans going back to the stone age  
[15:25] <bethemadeagle> they get the 150 bucks game with collectibles and everything :D  
[15:25] <deepdrive3254> thats why when i play cod i find 5 year olds yelling in their mic bethe  
[15:25] <katexo234> TPFufun TPFufun

[15:25] <lvlpower> @bethemadeagle That ture on release date all mom bought call of duty for there kids  
[15:25] <bethemadeagle> deep yes  
[15:25] <above7waves> This is some great commentary. Highly entertaining stuff. I can't believe you suckers pay for this clown to live ðŸ˜ˆ,  
[15:25] <cookiemanster530> Lmao  
[15:25] <bethemadeagle> kate will buy cod for her kids when she has some and they grow up

[15:26] <katexo234> bethe no I won't I don't think kids should be playing cod  
[15:26] <bethemadeagle> kate but your kid willll beg you for it  
[15:26] <stuart360> Its funny reading that troll pos, i mean he must of been watching himself to even know about the tip. Dumbass  
[15:26] <cookiemanster530> lol  
[15:26] <katexo234> I don't care bethe no means no  
[15:27] <marshmelons> sok really are pathetic.  
[15:27] <seth189> i wouldn't mind kids playing COD as long as they were mature but it seems maturity is a dime a dozen these days  
[15:27] <popsicolo> This is what Fallout 4 could've looked like if Bethesda used a good engine.  
[15:27] <bethemadeagle> kate what if your kid steals your credit card and buys it their self when you not looking  
[15:27] <stuart360> SOK dont even exist anymore. Phil outlived them, oh the irony lol  
[15:27] <theycallmejimbob> :o BetheMadEagle  
[15:28] <seth189> yeah lol, or didnt take away almost all rpg elements :,(  
[15:28] <bethemadeagle> jim it could happen  
[15:28] <katexo234> well bethe they are are getting an ass whoppin  
[15:28] <popsicolo> No skill checks NotLikeThis

[15:28] <seth189> YEAH like wtf  
[15:28] <seth189> no skills  
[15:28] <seth189> no traits either, premade backstory and only 4 dialogue options at a time  
[15:28] <bethemadeagle> what i would do is grab the damn disc and make em watch it burn  
[15:29] <deepdrive3254> an ass whoopin of a lifetime kate and wouldn't be able to enjoy whatever they bought  
[15:29] <cookiemanster530> All fallout games have a pre made backstory.  
[15:29] <deepdrive3254> i don't understand how some parents think their kids stealing from them is no big deal  
[15:29] <seth189> not to the extent of fallout 4  
[15:29] <katexo234> deep LUL LUL  
[15:30] <popsicolo> "You can be a soldier or a lawyer"-Todd Howard popsicSmug  
[15:30] <bethemadeagle> a ass whoopin lets them have the game still so making em watch it burn into dust will teach them not to do it and they wont have anything to play  
[15:30] <lvlpower> Sonny Strait  
[15:30] <businessdude> thsi a DLC?  
[15:30] <popsicolo> Yes.  
[15:30] <businessdude> tnx  
[15:30] <lvlpower> yes  
[15:30] <seth189> lol and sadly those are the only options, you could use the alternate start mod but it doesn't matter because the story is set behind finding ur son the whole time which sucks donkey ass  
[15:30] <deepdrive3254> LUL  
[15:31] <deepdrive3254> that was a bad idea

[15:31] <bethemadeagle> but in fallout 3 you was looking for your dad the whole game  
[15:31] <seth189> LUL  
[15:31] <deepdrive3254> almost  
[15:31] <seth189> yep, i have the same story gripe with fallout 3 in addition to fallout 4  
[15:32] <chaosalltheway> this part sucks DansGame  
[15:32] <katexo234> @popsicolo where did you get the idea to nam

[15:32] <zaxbys\_sauce> corm orn gord88  
[15:32] <deepdrive3254> yes swing your sword phil  
[15:32] <stuart360> To be fair to Bthesda, i dont know many people that play Elder Scrolls and Fallout for the stopry, its all about the side content. The story missions make up like 5-10% of the game  
[15:32] <katexo234> jump Phil jump LUL  
[15:33] <bethemadeagle> i play skyrim and fallout for all the fun side missions and they have a lot  
[15:33] <chaosalltheway> you need to go up  
[15:33] <popsicolo> I didn't want a name with a bunch of random letters and numbers Kate so I made a username that almost sounds like something @katexo234  
[15:33] <seth189> that's why i preferred new vegas because with an alternate start mod, the story was so loose you ccould start off in allegiance with a faction and beat the game with them or do it yourself or mr house it didn't matter you had the freedom of choice which i loved  
[15:33] <bethemadeagle> and in skyrim and fallout 3 and 4 i completed most of em  
[15:33] <chaosalltheway> danPuke  
[15:33] <bethemadeagle> i also did the story which was ok  
[15:33] <bethemadeagle> and i viewed all the endings  
[15:34] <seth189> yeah the story in fallout 3 3i just ignored and love the game, but with 4 i just can't due to the lack of rpg elements and mediocre shooting  
[15:34] <bethemadeagle> my name dont have numbers  
[15:34] <seth189> they just took 1 step forward and 3 steps back which sucks

[16:12] <bethemadeagle> stuart but in this case it was true  
[16:13] <bammbino> @Breath321 i highly doubt you own this game  
[16:13] <blue\_blur64> @Breath321 It's still a GOTY nominee, so it must've done something right

[16:15] <bammbino> @DarksydePhil you gotta admit that HZD came out at a good time tho.. February-March is usually a DEAD month for games

[16:15] <kushiyakitori> @blue\_blur64 nice. didn't even know

[16:15] <stuart360> Divinty is actually a really good RPG, but a game like that will never get nominated, not enough money and hype behind it

[16:15] <marshmelons> if persona 5 can get a nomination anything can. people just dont care about pc games

[16:15] <dukaduka> if pubg wins goty, it will end the console wars once and for all

[16:15] <kushiyakitori> most PC exclusives are never really hyped. PCs are celebrated for a lot of other things instead

[16:16] <bammbino> bammbino says " oh fuck" LOL

[16:16] <dooley258> Mario is probably going to win goty

[16:16] <blue\_blur64> duka, even the devs think other games deserve it more than they do :P

[16:17] <dukaduka> @ThatAnonyBear i just know of the game awards but there are probably a lot more nominations for it, including music

[16:18] <bethemadeagle> bear phil need to get hair cut man

[16:18] <stuart360> Phil speaks the truth

[16:18] <bammbino> i dont think phil wil touch BF1 ever again after that lag fiasco

[16:18] <blue\_blur64> However, Zelda coming out a week after made the hype die down a bit

[16:18] <breath321> "only trolls think this game is bad" Yeah, just call anyone that has a different opinion trolls and ignore them, that's a good mentality to have.

[16:18] <marshmelons> pc fanboys still here getting upset over a game they cant play. pathetic lmao

[16:18] <bammbino> sigh.. how low DICE has fallen  
[16:18] <infamousecondson> Hey phil, which episodic game will you play first?  
[16:18] <chaosalltheway> he was  
[16:18] <thatanonybear> @BetheMadEagle ahh, new girlfriend likes short hair NotLikeThis  
[16:19] <kushiyakitori> they already give you the idea of what you'll get if you do this mission

[16:19] <bethemadeagle> silent nope nintendo games dont affect ps4 exclusive  
[16:19] <bethemadeagle> bear hmm  
[16:19] <dukaduka> incoming Jebaited  
[16:19] <breath321> @marshmelons The difference is the stuff you're saying is factually incorrect, it's not a different opinion, it's just wrong, the things about PC games looking worse than console ones  
[16:19] <blue\_blur64> Oh yeah, I forgot that this game is an exclusive. I thought it was multiplatform for some reason  
[16:19] <kushiyakitori> I bought both and enjoyed both  
[16:19] <bethemadeagle> i got both too  
[16:19] <dooley258> I love the backstory of this game  
[16:19] <marshmelons> this troll still baiting  
[16:19] <breath321> But whatever, at this point I'm just taking the bait

[16:20] <gato\_twitch> WHY AM I TOXIC ??  
[16:20] <deepdrive3254> right this is a ps4 exclusive...thats why bobbi constantly shits on it whenever it comes up  
[16:20] <bammbino> @stuart360 did you get nioh for pc?  
[16:20] <stuart360> Yep Bammbino  
[16:20] <dukaduka> @dooley258 i like the post apocalyptic restart, but the characters in this game, excuse my language, are ass  
[16:20] <stuart360> Haven't finished it though  
[16:21] <marshmelons> friendly reminder. dps goty for 2016 was uncharted 4. another ps4 exclusive. thats gotta hurt  
[16:21] <bammbino> @stuart360 is it everything you thought i'd be for PC or were you let down by controls and/or port issues?  
[16:21] <popsicolo> This guy's nip isn't pointy enough for what he's wearing and where he is.  
[16:21] <chaosalltheway> great dialogues danLol  
[16:21] <blue\_blur64> and then the gift is actual shit Kappa  
[16:21] <stuart360> Well i have a decent PC so i could brute force the game. I used a 360 controller as well so had no real control problems  
[16:22] <bammbino> @marshmelons alot of the game franchies that Phil has covered during his entire legacy on YT often hit hit GOTY list  
[16:22] <bammbino> @marshmelons he had issues with ACO, but i doubt he'd drop it from 2017's goty list  
[16:22] <breath321> @Bammbino NFS Payback will be Goty Kappa  
[16:23] <bammbino> @stuart360 thats good man, i am hapy you were able to finally play it

[16:23] <stuart360> I really like Uncharted Marshmellow, although i still think Uncharted 2 is the best  
[16:23] <rorke47> when's bloodborne?  
[16:23] <kushiyakitori> I think Uncharted 2 is the best as well  
[16:23] <blue\_blur64> stuart, did you know you can use PS4 controllers with steam now? :P  
[16:23] <chaosalltheway> @Rorke47 Bmaco plan to announce new games on 15th dec  
[16:23] <blue\_blur64> nobody was talking about Bloodborne Rorke  
[16:23] <marshmelons> i think the vehicles and the swinging mechanic make uncharted 4 more fun

[16:24] <stuart360> It is unoptimized on PC though Bammibino, as usual for us PC gamers. Thankfully a good gpu can brute force the game

[16:24] <bethemadeagle> uncharted 4 is the best

[16:24] <rorke47> no i'm wondering when phil's doing his bloodborne redemption run

[16:24] <chaosalltheway> never danLol

[16:25] <dukaduka> did he not finish bloodborne?

[16:25] <rorke47> i really want to see him beat ludwig

[16:25] <stuart360> I didn't like that there seemed to be a lot less action in Uncharted 4, especially compared to the gauntlets in Uncharted 2 and the 2nd half of Uncharted 3

[16:25] <blue\_blur64> He did beat bloodborne, just not the dlc

[16:25] <gamemaster2003isdead> cheer!0 am i late

[16:38] <thatanonybear> because they've both moved on, and this isn't the platform to discuss her in retrospect  
[16:39] <breath321> fair enough I guess, I'm just kind of bothered by how Phil calls her "My ex" or "My then girlfriend" instead of calling her by her name lmao  
[16:39] <businessdude> I miss her tho
